

How to Disable Common Pop-Up Blockers

Listed below are some of the more popular Pop-up Blocking software Packages, and the workarounds in order to disable them to view our Programs. There are literally dozens of Pop-Up blocking software packages, so it is next to impossible to document the procedure for disabling each one. In general however, most Pop-Up Blockers will install themselves either within the browser toolbar, or within the Windows Taskbar along the bottom right corner.

Microsoft Service Pack 2 (SP2)

With the release of Microsoft's Service Pack 2, Pop-Up Blocking is now directly integrated into Internet Explorer. **Note that by default Pop-Up blocking is Enabled within SP2**

Listed below is the location of the menu within **Internet Explorer**:

Click on **Turn Off Pop-up Blocker**. Once this is done then the user should be able to view the program. Once they are finished watching the Program, they can go back in and recheck the entry to re-enable their Pop-Up Blocker.

Yahoo Toolbar

Probably the most popular toolbar, this program allows several other functions besides Pop-Up Blocking. Listed below is how the bar will appear within IE:

The following icon is the Pop-Up Blocker:

To disable Pop-Up Blocking, Click on the Down arrow to bring up the Menu:

Uncheck the entry **Enable Pop-Up Blocker**. Once this is done then the user should be able to view the program. Once they are finished watching the Program, they can go back in and recheck the entry to re-enable their Pop-Up Blocker.

Google Toolbar

Google has their own brand of toolbar that is very similar to Yahoo's. It offers other features on top of Pop-Up blocking, and looks like the following:

The following icon is the Pop-Up Blocker:

To allow pop-ups to appear, merely click on the icon. You should now see the following:

To turn the Pop-Up Blocker back on, you can click the icon again to re-enable the pop-up blocker.

Note: if this is not sufficient to allow pop-up windows to appear, you may need to disable the Google toolbar completely by following the approach below.

Right-click on the toolbar and a Drop-Down will appear with a listing of all of the Toolbars.

Uncheck the entry **Google**. You will now be able to view the Program. Once completed, to re-enable the Google Toolbar, right-click again in the toolbar area and recheck **Google**.

MSN Toolbar

MSN Toolbar is the latest of the toolbars, but is starting to gain popularity. As with Yahoo and Google Toolbars, it allows other features on top of Pop-Up Blocking. Below is the MSN Toolbar:

The following icon is the Pop-Up Blocker:

To disable Pop-Up Blocking, Click on the Down arrow to the right of the text to bring up the Menu:

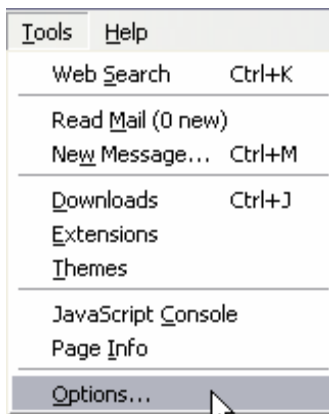

Click on **Allow Pop-ups**. Once this is done then the user should be able to view the program. Once they are finished watching the Program, they can go back in and recheck the entry to re-enable their Pop-Up Blocker.

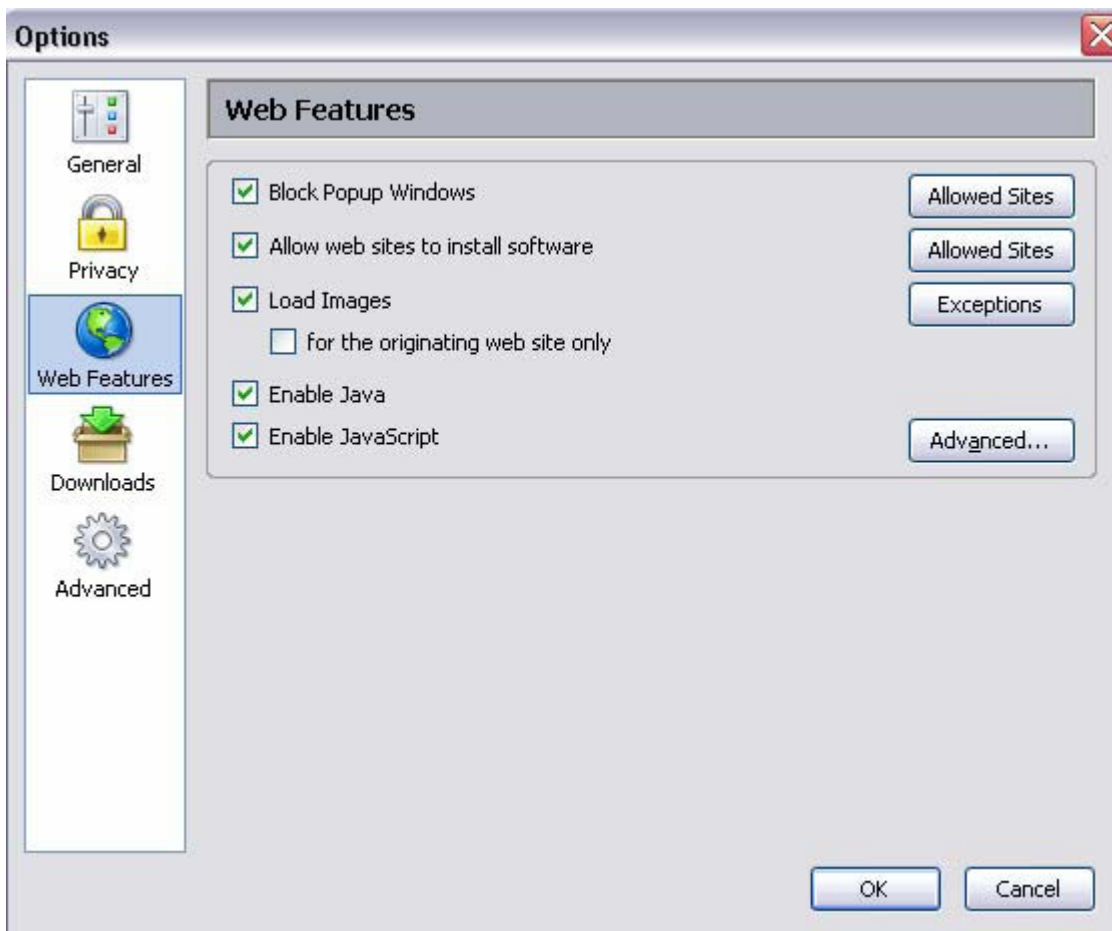

Mozilla Firefox

Mozilla's pop-up blocker is integrated into the browser, much like the pop-up blocker for Internet Explorer. To disable the pop-up blocker:

Open the **Tools** menu and click on **Options**.

The following window will appear:

Click on the **Web Features** icon in the list on the left.

Remove the checkmark from beside the **Block Popup Windows** option.

Click **OK** to close the window.

Once you are finished, you can go back into the menu again to turn on the pop-up blocker.

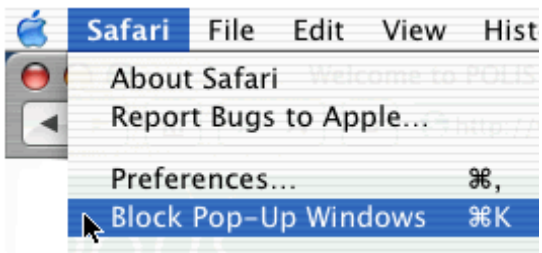

Safari

Safari's pop-up blocker is integrated into the browser, much like the pop-up blocker for Internet Explorer. To disable the pop-up blocker:

- Open the Safari menu and select the **Preferences** option.
- In the window that displays, click on the **Security** option.
- Remove the checkmark from the **Block pop-up windows** option.
- Close the window.

Or, for another version of Safari try

- Open Safari
- Click on the **Safari** Menu
- Uncheck **Block Pop-Up Windows**

Once you are finished, you can go back into the menu again to turn on the pop-up blocker.
